

Forbo Furniture Linoleum Cleaning and Maintenance:

Forbo furniture linoleum collections are easy to clean and maintain. Following these guidelines will ensure that the optimum appearance of the product is retained.

Initial clean before use

After Manufacture and/or before use

Before packing and leaving the place of manufacture ensure that the surface is clean and ready for use. Clean with a damp cloth to ensure that loose dust etc. is removed and check the surface.

For extra protection during transportation and before first use we recommend the application of Forbo Monel with a clean cloth.

Regular cleaning:

Clean with a damp cloth and a neutral cleaner. As a regular cleaner you can also use Forbo Monel diluted 0.5 cl. to 10 litres of water.

Periodic Maintenance:

In order to maintain the surface of Furniture Linoleum, Forbo Monel diluted 0.5 cl. to 10 litres of water should be used periodically. If the surface has been neglected or worn, Forbo Monel diluted 1:10 with water can be used to restore the surface appearance of Furniture Linoleum

Stain removal:

To prevent stubborn stains always use coasters under flower pots, vases, cups, glasses, etc.

It is important to remove spots, stains and spillages as quickly as possible to prevent them from penetrating into the material. The surface can be cleaned with a neutral detergent and water.

If the above treatment does not help, try soaking the surface in water with a pH-neutral Universal Cleaner for a few minutes. Scrub the surface gently with a white pad or similar. **Do not use anything more abrasive than a white pad to clean furniture linoleum.**

Finish by wiping off the dirty water with a cloth and rinse the surface with clean water and a clean cloth. To finish the surface after a thorough cleaning see "Periodic Maintenance" above.

Some pigmented stains may be removed or made less visible by using turpentine or similar oil based solvent.

Do not use alkaline or alcohol based cleaning products since it will damage the surface.

Recommended care products

For regular cleaning and stain removal use a pH neutral detergent such as M2 Care Ultra, a pH neutral anti-bacterial cleaning solution. For periodic maintenance use Forbo Monel.

Both of the products above are available from the Wrennals Group. Please tel. 01772 435739 for further information.

Other floor care products may be used on Forbo Flooring resilient floor coverings. If alternative products are to be used consult with your regular supplier for more information and guidance.
